1. Light twin-engine DC-3 transports and 32 twin-engine Pe-2s were counted at the Wiener-Neustadt (O 48/X 35) airfield. There were also 40 to 50 single-engine fighters, the exact number of which could not be counted as they were badly arranged.
2. Three transports were flying in formation while a Pe-2 practiced attacking them.

3. [REDACTED] the kaserne on Fernerstorferstrasse which was occupied by Soviet Air Force troops.

[REDACTED] Comment :

The correctness of the information cannot be verified for lack of comparable reports. It has been assumed that a fighter regiment of the 9th Gds Ftr Div and an air transport squadron equipped with 10 to 20 LI-2s were stationed in Wiener-Neustadt. The presence of an air unit equipped with Pe-2s has not been confirmed.
